Children's Painting Courses/Creative Workshop:

Each of the mornings/afternoons is devoted to a specific thematic focal point. Impulses and inspiration are taken from the current exhibition. Individual works are presented to the children in a playful way appealing to the senses and provide the starting point for their own creative activity. An atelier situation is available to the children in the Lentos museum education room. Special attention is devoted to the individual and personal image language of the children as they draw, paint, print, collage, etc.

Children's Painting Course for Ages 6 to 19:

"Masks versus Portrait"

An important picture theme in Expressionism is the human face, of which the expression is enhanced by abstraction and color. Starting from the face, we develop masks in expressive form and coloration. Working materials such as cardboard, adhesive tape, straw and paint are used playfully. The mask is the final form of a development, the start of which can be found in face and body painting.
